Terrence J. Eveline

FULL STACK SOFTWARE DEVELOPER

I am a curious and creative software developer with a background in education. I love finding graceful solutions to difficult problems, and I am committed to success. I believe that if a problem doesn't challenge you, it doesn't change you and that collaboration is key. I am now searching for a position in web development.

RECENT PROJECTS

Hungry Eyes — *DigitalCrafts Project*

- Collaborated in a small group to use APIs such as Google, Yelp, and Firebase, as well as HTML, CSS, and Bootstrap to demonstrate proficiency in front–end development technologies and UX/UI design
- LIve site: https://digitalcrafts-ph-1566664527167.firebaseapp.com/
- Repo: https://github.com/tjeve/Phase-1-Project

Tumblr Clone — *DigitalCrafts Project*

- Contributed to the creation of a clone of Tumblr using back–end technologies such as Express.js, Node.js, PostgreSQL, Knex.js, and Passport.js
- LIve site: https://digitalcrafts-tumblr-clone.herokuapp.com
- Repo: https://github.com/tjeve/phase-2-project-tumblr-clone

PROFESSIONAL WORK EXPERIENCE

Science Department Chair | Integrated Physics and Chemistry Teacher
Houston Independent School District, Ortiz Middle School

MAY 2013 - PRESENT

- Created a collaborative, productive and respectful environment for other teachers, department chairs, building principals, other administrators, and students as I worked with them daily
- Consistently received highest performance rating, taught science and critical thinking to 8th grade students, and increased student state test scores by 20%
- Utilized technology to develop upbeat and engaging lesson plans and resources such as Google classroom to encourage students to reach rigorous learning goals and taught programming basics in an after school program.

EDUCATION

DigitalCrafts: Full Stack Web Development *Certificate in Software Development*

JUNE 2019 - PRESENT

Studied with industry experts and peers to develop a solid foundation in software development and experimented with web development technologies and multiple programming languages, totaling over 540 hours.

University of Texas at Austin: Austin, TX— B.A. in *Biological Anthropology*
JUNE 2005 - DECEMBER 2009

TECHNICAL SKILLS

React	Redux
Git	Node.js
